FRONT-END WEB DEVELOPER / DESIGNER

With five years of studio experience with successful brands such as Panasonic UK, strong knowledge in both web and design practices, and an Upper Second Bachelors degree, I believe myself to be a strong candidate for a front-end web developer / designer role within your company. My education and working experience prove myself to be a responsible and reliable employee with great focus and enthusiasm. I am extremely grateful for your consideration for any position that you feel may be appropriate.

KEY SKILLS

- Strong passion for web development practices
- Strong understanding of design principles
- Strong passion for digital design
- Strong willingness to learn

I.T. SKILLS

- Strong knowledge of front-end web development languages: HTML5 / CSS / Sass / PHP
- Good knowledge of front-end web development languages: Javascript / JQuery
- Strong knowledge of top-level design packages, incl. Adobe Creative Suite
- Strong understanding of Content Management Systems (WordPress)
- Strong understanding of cross-browser checking: Chrome, Firefox, Safari, IE / Edge, iOS, Android
- Strong knowledge of Microsoft Office Suite: Word, PowerPoint, Excel

STUDIO EXPERIENCE

Future Publications — Bath

Nov 2008 to Jan 2009 (placement)

<http://futureplc.com>

Front-end Web Developer / Designer

Duties incl. designing and building short-term promotional websites for clients such as Honey Monster, Krispy Kreme and Sport Industry Awards. I work efficiently under the pressure of strict deadlines.

Front-end Web Developer / Designer

Duties incl. developing websites, either as flat builds (HTML / CSS / Sass / JQuery), or working with the client directly to create a Content Management System (WordPress / PHP) that suites their particular needs. I have the opportunity to design websites (Adobe Photoshop / Illustrator CS6).

Design Assistant

Duties incl. assisting with product videos used in stores across the country and designing a series of posters used in preparation for a visit from Kunio Nakamura, the global company chairman. I gained valuable understanding of how design can be utilised within such a successful company.

Freelance Front-end Web Developer / Designer

I maintain my own website, where my working portfolio is displayed. I ensure that it is updated regularly to reflect my current developing ability. Whenever possible, I take on freelance work.

Design Assistant

I constructed several pages that appeared in a Future PLC publication, where I gained valuable knowledge about design principles and skills within Adobe Creative Suite.
